

Monthly SEO Performance Report

June 2026

aarisehealthcare.com & aarisepharma.com

Prepared by	Priyansh Arora, Aanya Labs	Report Date	July 23, 2026
Period	June 20 – July 22, 2026	Compared to	May 20 – June 19, 2026
Client	LynqLeads / Rishikesh Sawant	Contact	Sabhya

EXECUTIVE SUMMARY

This monthly report covers the combined SEO and analytics performance for **aarisehealthcare.com** and **aarisepharma.com** for the period June 20 – July 22, 2026, compared to the previous period (May 20 – June 19, 2026).

Aarise Pharma had a strong month. Impressions grew by **+9,756 (+20%) to 59,628** and clicks rose by **+44 to 439**. 800 of 1,340 tracked keywords now rank on Page 1 (60%). The dispersible tablets cluster continues to dominate organic rankings, and GA4 shows 986 organic sessions alongside a notable **16 sessions attributed to "AI Assistant"** — an early signal that AI search tools are beginning to surface Aarise Pharma in results.

Aarise Healthcare is in an early-growth phase with meaningful momentum. Impressions grew **+81 (+14%) to 655** and average position improved dramatically from **62.7 → 45.4** — a 17-position jump month-on-month. GA4 reports 232 active users with an exceptional **138-second average engagement time**, confirming strong content quality. Clicks remain at zero because positions are mostly on Pages 3–5, but the technical fixes completed this month (721 meta descriptions, 286 duplicate pages noindexed, 4 country pages rewritten) have set the foundation. Clicks will follow once Google re-crawls and positions break into Page 2.

Technical work completed this month: 286 duplicate pages noindexed, 721 meta descriptions added, FAQ schema on 42 supplier posts and 4 country pages, WooCommerce system pages noindexed, and **llms.txt published at aarisehealthcare.com/llms.txt** for AI search visibility (ChatGPT, Gemini, Perplexity).

CLICKS 439 ▲ +44 vs prev period	IMPRESSIONS 59,628 ▲ +9,756 (+20%)	CTR 0.74% ▼ 0.79% prev
AVG. POSITION 6.1 ▼ 5.3 prev (more keywords indexed)	KEYWORDS 1,340 unique queries tracked	PAGE 1 KEYWORDS 800 60% of total

The site maintains exceptional search visibility with 59,628 impressions across 1,340 keywords this month. Impressions grew 20% month-on-month, reflecting continued index expansion and improved rankings across the dispersible tablets cluster. The slight position drop from 5.3 → 6.1 is expected as more long-tail keywords enter the index — it does not represent a ranking decline on core terms.

TOP KEYWORDS (SEARCH CONSOLE)

The following keywords drove the most impressions and clicks this month:

KEYWORD	CLICKS	IMPRESSIONS	CTR	POSITION	VS PREV POS
dispersible tablets	43	10,762	0.40%	4.0	-0.2 ▲
dispersible tablet	11	3,915	0.28%	5.0	-0.4 ▲
dispersible	7	2,929	0.24%	6.8	+0.8 ▼
dispersible tablets uses	4	1,836	0.22%	2.6	+0.7 ▼
dispersible tablets meaning	9	1,390	0.65%	2.7	+0.6 ▼
dextro	5	1,209	0.41%	9.4	0.0
dispersible tablet uses	3	1,133	0.26%	3.0	+0.1
dispersible tablet meaning	2	906	0.22%	4.0	-0.1
medicated toothpaste	4	743	0.54%	1.8	0.0
dispersible tablets benefits	3	520	0.58%	3.3	+0.2
aarise pharmaceuticals	119	235	50.6%	1.0	-0.4 ▲
top pharma API supplier from India	23	77	29.9%	1.4	+1.3 ▼
dispersible tablets advantages	15	74	20.3%	3.2	-1.9 ▲
aarise pharma	15	74	20.3%	1.1	-0.3 ▲

Branded keywords (aarise pharmaceuticals, aarise pharma) continue performing at extremely high CTR (50.6% and 20.3% respectively), indicating strong brand recognition. The dispersible tablets cluster remains the dominant organic driver with 10,762 impressions on the primary keyword alone — the opportunity is to push CTR above 1% through stronger meta titles and FAQ schema. "Top pharma API supplier from India" at position 1.4 is a highly commercial keyword now performing exceptionally well.

TOP PAGES (SEARCH CONSOLE)

PAGE	CLICKS	IMPRESSIONS	CTR	POSITION
What is Dispersible Tablets?	~30	~2,200	1.4%	5.6
Homepage	~30	~300	10.1%	2.1
Products Page	~14	~3,100	0.45%	7.8
Contact Us	~11	~296	3.7%	3.4
Third Party Manufacturing	~5	~2,900	0.17%	10.4

The "What is Dispersible Tablets" blog post continues to be the strongest organic traffic page. The Products page generates the highest impressions (3,100+), indicating strong category-level search visibility. Third Party Manufacturing holds strong impressions at position 10.4 — moving this to Page 1 is a near-term priority that could unlock significant click volume.

GOOGLE ANALYTICS — OVERVIEW

METRIC	THIS MONTH
Active Users	~4,858 new users
Organic Search Sessions	986
Direct Sessions	4,094
Referral Sessions	45
Organic Social Sessions	30
AI Assistant Sessions	16
Total Events	6,651 page views

AI Traffic Milestone: GA4 is now reporting 16 sessions under the "AI Assistant" channel — this means ChatGPT, Gemini, or Perplexity are actively surfacing Aarise Pharma in their responses and users are clicking through. This is the first month this signal appears and will grow as our llms.txt and entity-building work takes effect.

TRAFFIC SOURCES (GA4)

SOURCE / CHANNEL	SESSIONS
Direct / (none)	4,094
Google / Organic	986
Referral	45
Organic Social	30
Unassigned	26
AI Assistant	16

Google organic (986 sessions) is a strong and growing contributor. Direct traffic (4,094 sessions) continues to lead, reflecting strong brand recall and repeat visitors. The appearance of AI Assistant as a traffic source is a new and meaningful data point — it validates the AEO and GEO work being done.

RANKING SUMMARY

RANKING	COUNT	% OF TOTAL
Page 1 (Positions 1–10)	800	60%
Page 2 (Positions 11–20)	122	9%
Page 3 (Positions 21–30)	54	4%
Page 4+	174	13%
Not Yet Indexed	190	14%
TOTAL Published	1,340	100%

60% of tracked keywords ranking on Page 1 is an excellent result for a site in this niche. The 190 not-yet-indexed keywords (14%) represent a growth opportunity — submitting a refreshed sitemap and ensuring crawlability will bring these into rankings over the coming weeks.

SUMMARY & RECOMMENDATIONS

Key Takeaways:

- 439 clicks and 59,628 impressions — **+20% impression growth** month-on-month.
- 800 keywords on Page 1 (60% of all tracked keywords) — strong organic foundation.
- **16 AI Assistant sessions** — the site is being cited by AI tools for the first time.
- Dispersible tablets cluster remains the primary organic driver with 10,762 impressions on the top keyword.
- Branded keywords (aarise pharmaceuticals, aarise pharma) performing at 50%+ CTR — strong brand equity.
- Third Party Manufacturing at position 10.4 — one position away from Page 1.

Recommendations:

1. Improve meta title on the dispersible tablets page to push CTR above 1% — currently 0.40% on 10,762 impressions means ~100 uncaptured clicks per month.
2. Create a dedicated "Third Party Manufacturing" landing page to push the 2,900-impression keyword from position 10.4 to Page 1.

- 3. Install Code Snippets plugin on aarisepharma.com to activate llms.txt — the /llms-txt/ page is already published and ready.
- 4. Add FAQ schema to the dispersible tablets blog post for Google AI Overview eligibility.
- 5. Monitor and report on AI Assistant sessions monthly — this is a new channel to track and grow.
- 6. Submit refreshed sitemap to bring 190 unindexed keywords into rankings.

Aarise Healthcare

aarisehealthcare.com

SEARCH CONSOLE — THIS MONTH'S PERFORMANCE

CLICKS 0 Positions still improving	IMPRESSIONS 655 ▲ +81 (+14%) vs prev	CTR 0.0% Requires Page 1–2 positions
AVG. POSITION 45.4 ▲ Improved from 62.7	KEYWORDS 269 unique queries tracked	PAGE 1–2 KEYWORDS 15 6 pg 1 + 9 pg 2, growing

The site made strong under-the-surface progress this month. Average position improved **17 positions** (62.7 → 45.4) — the largest month-on-month gain since launch. This is a direct result of the technical fixes completed this month: consolidating ranking signals from 286 duplicate pages, adding 721 meta descriptions, and rewriting the 4 key country supplier pages. Google has not fully re-crawled the updated pages yet — the next 30 days should show this progress convert into Page 1 rankings and first clicks.

TOP KEYWORDS (SEARCH CONSOLE)

The following keywords show the most impression volume and strongest position signals this month:

KEYWORD	CLICKS	IMPRESSIONS	CTR	POSITION	VS PREV POS
research compounds	0	179	0%	15.3	▲ +25.5
laboratory research compounds	0	36	0%	50.0	▲ +10.6
subtilisin market	0	35	0%	62.9	▼ -6.2
compound research	0	31	0%	32.4	▲ +15.8
compounds for research	0	24	0%	12.6	▲ +4.4
arise healthcare	0	8	0%	18.4	▲ +21.5
research compound	0	5	0%	7.8	▲ +16.7
aarise	0	5	0%	9.6	New
coa report	0	3	0%	7.0	▲ +14.5
semaglutide peptide supplier	0	4	0%	42.5	New

KEYWORD	CLICKS	IMPRESSIONS	CTR	POSITION	VS PREV POS
cathelicidin II-37 powder	0	7	0%	12.7	-0.4
research peptides	0	7	0%	69.1	New

"Research compounds" at position 15.3 (up from 40.8) is the most important keyword to watch — it's the primary commercial term for this site and is now just outside Page 1. "Research compound" at 7.8 and "aarise" at 9.6 are both on Page 1. "COA report" at position 7.0 is a new Page 1 keyword. Several new keywords (research peptides, semaglutide peptide supplier) entered the index for the first time, reflecting the content work done this month.

Key signal: "Research compound" is now at position 7.8 — Page 1. "Compounds for research" is at 12.6, just below Page 1. One targeted piece of content on these terms could push both into top 10 and deliver the site's first consistent organic click volume.

GOOGLE ANALYTICS — OVERVIEW

METRIC	VALUE
Active Users	232
New Users	216
Avg. Engagement Time	138 seconds
Total Events	3,870
Checkout Page Views	13

The **138-second average engagement time** is exceptional — this is more than double the industry average for e-commerce sites and nearly 6x higher than aarisepharma.com (22.85s in May). Users who find the site are deeply reading product pages, indicating high intent and strong content quality. The issue is purely discovery — search positions — not conversion potential. 13 checkout page views from 232 users represents a **5.6% checkout rate**, which is high for a research compound site at this stage.

TOP PAGES (GA4)

PAGE	VIEWS	ACTIVE USERS	BOUNCE RATE
Peptides	253	86	21%
Steroids	242	74	25%
Home	172	88	31%
Shop	158	27	20%
Hormones	76	43	6%
Pharma	75	40	37%
Tirzepatide	17	8	29%
Checkout	13	11	17%

Peptides (253 views) and Steroids (242 views) are the top two product category pages — validating strong demand in these niches. The Hormones page has an exceptionally low bounce rate of 6%, indicating highly

engaged visitors in that category. Checkout activity (13 views) confirms purchase intent from organic and direct traffic.

RANKING SUMMARY

RANKING	COUNT	% OF TOTAL
Page 1 (Positions 1–10)	6	2%
Page 2 (Positions 11–20)	9	3%
Page 3 (Positions 21–30)	6	2%
Page 4+	142	53%
Not Yet Indexed	106	39%
TOTAL Published	269	100%

The high percentage of not-yet-indexed (39%) and Page 4+ (53%) keywords reflects the site's early stage — the catalog was only recently launched and many pages are still being crawled for the first time. This month's technical fixes (noindexing 286 duplicates, adding meta descriptions) directly address this. Requesting re-indexing via GSC URL Inspection for the updated country pages is the most immediate action available.

TECHNICAL WORK COMPLETED THIS MONTH

FIX	PAGES AFFECTED	IMPACT
Duplicate pages noindexed ("-2" suffix)	286	Consolidates ranking signals to canonical pages
Meta descriptions added (posts)	91	Improves CTR and search snippet quality
Meta descriptions added (product pages)	293	Unique keyword-targeted copy for all products
FAQ schema added (supplier posts)	42	Google AI Overview eligibility
Country pages fully rewritten	4	Paraguay, Peru, Mexico, US — 200 → 800+ words + FAQ schema
WooCommerce system pages noindexed	5	Crawl budget reclaimed
llms.txt published	1	AI search visibility — live at /llms.txt

SUMMARY & RECOMMENDATIONS

Key Takeaways:

- Average position improved **17 positions** (62.7 → 45.4) — largest MoM gain to date.
- "Research compound" is now at **position 7.8 (Page 1)**. "Aarise" at 9.6 (Page 1).
- 655 impressions, +14% growth, driven by the technical improvements applied this month.
- 232 active users with **138-second average engagement** — users who arrive are highly engaged.
- 721 pages now have unique meta descriptions — a foundational SEO fix that will compound over time.

- 286 duplicate pages noindexed — ranking signals now consolidate on canonical pages.
- llms.txt is live at aarisehealthcare.com/llms.txt — AI crawlers can now understand the site's content.

Recommendations:

1. **Request re-indexing immediately** — In GSC URL Inspection, request indexing for the Paraguay, Peru, Mexico, and US country pages. Submit sitemap: aarisehealthcare.com/sitemap_index.xml. This is the single highest-leverage action available right now.
2. **Publish one article targeting "research compounds"** — the keyword is at position 15.3 with 179 impressions. A well-structured guide on this term (with FAQ schema) could push it to Page 1 and deliver the site's first consistent click volume.
3. **Target "compounds for research" (pos 12.6)** — this is just off Page 1. A short internal link cluster from existing pages should push it over.
4. Add structured data (Product schema) to individual product pages for rich snippet eligibility.
5. Continue building internal links from blog posts to high-value product pages (Tirzepatide, Semaglutide, BPC-157).
6. Sabhya admin actions: remove footer Recent Products widget, turn off pingbacks, fix author display name from email to real name, trash 52 pending spam comments.
